

THE FISHWRAP

The Hunt is Coming!! Sign up happening now!

The Hunt is a game of assassination (except with water-gun). Basically, if you sign up, you will receive a photo of another person in the game (your target) and a 'deadly' water-gun (neither ammunition nor a holster are provided, sorry). Your task is to hunt down your target, spray them, and then continue on to hunt their target. The last person left in the "loop" (i.e. alive, or dry as it were) will be the winner. You must 'kill' your target inside ring road and not inside a building. There are sweet prizes for the last person left alive, and also for the person with the most confirmed 'kills,' not to mention the bragging rights of being our discipline's best assassin.

**Register by Friday
September 29th with
Michelle or in the ESS
office.**

Cost: \$2. Pick up your target on Monday; the game starts Wednesday at high noon. [Editor's note: remember, you can fill the water gun with whatever you want, and bystanders can always get caught in the crossfire.]

The Fishwrap

This Fish Wrap was brought to you by current Fish Wrap editor, Andrew Harris, as well as the new Director of Communications, Jonathan Cheng.

Keep in mind the Fish Wrap is created with contributions from the students. If you find something interesting/funny, or go to one of our events and have a first-hand experience (e.g. pictures, play-by-plays), or if you just want to help out with the Fish Wrap production in general, e-mail us at fishwrap@engr.uvic.ca. If it is deemed worthy and appropriate by the powers above, it will appear in the next Fish Wrap.

Foosball Ladder Commences

Like the previous semesters, we are beginning an ESS foosball ladder, so sign up with a team of two in the ESS office (ELW A144). The rules are posted next to the foosball table and cater to any skill levels (bare-ass does not apply in ladder matches). Foosball is a great way to get to know people in the ESS and 1A students are immune to certain methods of humiliation, at least until they make it to 1B (if they make it to 1B), so it would be a good idea to improve your skills now while you're still safe (in regards to foosball anyway).

The Fish Wrap is brought to you by the Engineering Students' Society. To contact the editor please e-mail: fishwrap@engr.uvic.ca.
