What grinds my gears? NO HOCKEY..... STILL

Alright, I am starting to get rustled by a lack of NHL hockey.

Maybe it’s the constant meetings and subsequent hope that arises whenever I hear that “both sides are talking” but I can honestly say that I am becoming increasingly and equally frustrated at both the owners and the players at their respective and collective inabilities to reach an agreement that will get hockey back up again.

Maybe I am just starting to come to terms with the fact that my general interest is waining as my anger is gaining but I can’t even get an erection anymore. I try so hard - magazines, pictures, cinnamon buns... no effect whatsoever. My grip on reality is slipping and I don’t know what to do with myself anymore.

Maybe it is the bath salts talking but I should really stop walking around in my Islanders boxers, with a pabst blue-ribbon in one hand, jergens in the other. People don’t look at me the same since hockey stopped - oh well, they just don’t understand my love for hockey.

Maybe I could do something besides complaining, like... something productive...
Nah, my opinion needs to be heard and shoved down everyone’s throat like a rusty honeydew.
*insert obligatory fuck Bettman comment*
Oh - got a concussion.

Jacob:
President

Going to meetings, as always. The faculty has been finalizing some changes to the course calendar. Most of them are minor layout changes (and yes, I’ve mentioned almost nobody uses the printed calendar). There will also be some additions to the 4th-year specialization course lists, which I believe will be effective next fall.

Joel:
VP Academic

Nothing too exciting. I’m still investigating a new photocopier and a new lid for the slushee machine. Business as usual.

I am getting crunk tonight.
Yeah boy.

Tom:
VP External

Well, I hope to see lots of people this weekend for UVEC - let the games begin

Hey fellow ‘geers, in case you haven’t heard me going on about it yet we have another fun EEE coming up on Friday the 16th (TODAY!), and as you might have guessed it will be our last one ever. This excursion is to celebrate the end of the world, and what a wonderful life it’s had. Since post-apocalyptic Victoria won’t be that fun of a place, come on out and have some fun with your classmates! Tickets are on sale in the ESS office.
You stay classy, UVic Engineering!

Nic:
Dir IT

Aside from my regular secretary duties, I am also in the process of hopefully setting up a first year council. I want to help other first years get involved and I believe this is a good way to do it! Look for my face at the front of your ENGR 020 class in a few weeks, I’ll be announcing the first meeting!

Hello again, my name is Evan and I have been working so hard to keep as much room for activities open as humanly possible this term. These last two weeks have been bajonkers! I shared some laughs and knitted some mittens for the orphan kittens - now that’s “Purr-fecto” I had fun :))))))))))

Also, if you would like to put up a poster on our ESS message board, do bring it up to the ESS Office and I will be more than happy to stamp/sign-off on it for you!

**THIS IS THE ONLY WORK OUT I KNOW**

Chris: Dir Corporate Relations

Since I have talked to you last, many things have happened. I showed off the sponsorship package and it was generally well received. I have been working on adding suggestions and revisions, and it is really coming together. Also we had reading break, and I took a break from reading, so it was good
